

MJR-7000 Time Recorder

Calculates Hours Automatically

The MJR7000 is a powerful programmable time recorder that tracks employee time. This popular time recorder automatically calculates hours worked, separates regular time from overtime hours and produces attendance reports. With a 100 employee capacity the MJR7000 is guaranteed to save you money and time.

Features

- Calculates hours worked
- Separation of regular and overtime hours
- Perpetual calendar
- Automatic card feed
- Automatic daylight savings adjustment
- Automatic break deduction option
- Attendance report for current and previous pay periods
- Lockout capability
- Built in battery backup protects clock and program data up to 72 hours during power failure
- Break net rounding
- Paid breaks
- Carryover of weekly worked hours for semi-monthly and monthly pay periods
- 100 employee capacity
- Two sided printing for bi-weekly, semi-monthly and monthly pay periods

Benefits

- Replaces time sheets and clock with computerized time calculating terminal
- Controls employee time theft
- Eliminates costly calculating errors
- Accommodates a wide variety of payroll calculation rules
